Tempo Restaurant – Food Waste Prevention Program Results

August 2025 – July 2026 Weighted Results

Approved baseline 114.5 g/guest	Aug 2025–jul 2026 weighted result 102.8 g/guest	Aug 2025–jul 2026 reduction 10.3%	25% target 85.9 g/guest

1. The Results Summary

1. Tempo began the food waste reduction programme in August 2025. The approved programme baseline is 114.5 grams of comparable food waste per guest.
2. Aug 2025–Jul 2026 weighted result: 102.8 grams of comparable food waste per guest.
3. Aug 2025–Jul 2026 reduction: 10.3% below the approved August 2025 baseline of 114.5 g/guest.
4. Jan–Jul 2026 weighted result: 95.2 g/guest, representing a 16.9% reduction from the same August 2025 baseline. This is shown as supporting recent period results.
5. The approved 25% reduction target is 85.9 g/guests. The full period weighted result remains 16.9 g/guest above this target.
6. For this disclosure, comparable food waste means untouched buffet waste plus guest plate waste. It does not mean every food-waste stream generated by the kitchen.

2. Key figures for Public Disclosure

Measure	Result
Reporting period	August 2025 – July 2026 (12 months)
Approved baseline	114.5 g per guest – August 2025
Total guest covers	617,125 guest covers
Comparable food waste	63,417.0 kg (about 63.42 tonnes)
Aug 2025–Jul 2026 weighted result	102.8 g per guest
Aug 2025–Jul 2026 reduction vs baseline	10.3% reduction from the August 2025 baseline
Approved 25% target	85.9 g per guest
Gap from Aug 2025–Jul 2026 weighted result to target	16.9 g per guest
Jan–Jul 2026 weighted result	95.2 g per guest (16.9% below baseline)
Waste mix for Aug–Jul	Untouched buffet: 13,946.5 kg (22.0%) Plate waste: 49,470.4 kg (78.0%)

3. Month–by–month performance trend

Month	Guest covers	Waste per guest	Position vs 114.5 g baseline
Aug–25	45,843	114.5 g	Approved baseline
Sep–25	41,781	119.0 g	3.9% higher
Oct–25	40,239	147.5 g	28.8% higher
Nov–25	46,117	114.9 g	0.4% higher
Dec–25	60,746	95.3 g	16.8% lower
Jan–26	64,716	101.5 g	11.4% lower
Feb–26	62,537	88.9 g	22.4% lower
Mar–26	56,115	93.2 g	18.6% lower
Apr–26	48,374	85.3 g	25.5% lower
May–26	44,532	94.7 g	17.3% lower
Jun–26	42,744	117.8 g	2.9% higher
Jul–26	63,381	89.1 g	22.2% lower

Monthly Comparable Food Waste

Lower grams per guest means less comparable food waste per guest. Aug 2025–Jul 2026 weighed 102.8 g/guest. It is calculated from the full–period totals, not by averaging the monthly figures.

SIYAMCARES.COM

Tempo Restaurant at Siyam World Maldives has been actively measuring and reducing food waste since August 2025. Using untouched buffet waste and guest plate waste as the consistent comparable streams, the approved program baseline is 114.5 grams of comparable food waste per guest. Across the full 12-month period from August 2025 to July 2026, Tempo recorded a weighted result of 102.8 grams per guest, representing a 10.3% reduction from the baseline. During the more recent January-July 2026 period, the weighted result was 95.2 grams per guest, equivalent to a 16.9% reduction from the same baseline. Over the full 12-month reporting period, Tempo served 617,125 guest covers and recorded approximately 63.42 tonnes of comparable food waste. Tempo continues to use food-waste data to strengthen buffet planning, replenishment, portion awareness and day-to-day operational controls while working toward the approved 25% reduction target of 85.9 grams per guest.

Our August 2025 program baseline 114.5 g/guest	Aug 2025–Jul 2026 weighted result 102.8 g/guest	Aug 2025–Jul 2026 Food Waste reduction from the August 2025 baseline
Jan–Jul 2026 weighed result 95.2 g/guest	Jan–Jul 2026 reduction from the August 2025 baseline 16.9%	Our approved 25% reduction target 85.9 g/guest

Average Food Waste Reduction	Reduction of Food Waste per cover	Carbon Emissions Avoided	Food Prevented from becoming waste	Meals Equivalent Saved
10.3%	10.3%	18.11 tons Co2 eq	7244 Kg	18,110 meals
